Announcement of latest home energy-efficiency technology

The Power-Pipe™, an inexpensive technology which reduces water heating bills by up to 40%, will be made available to ENERGY STAR homebuilders

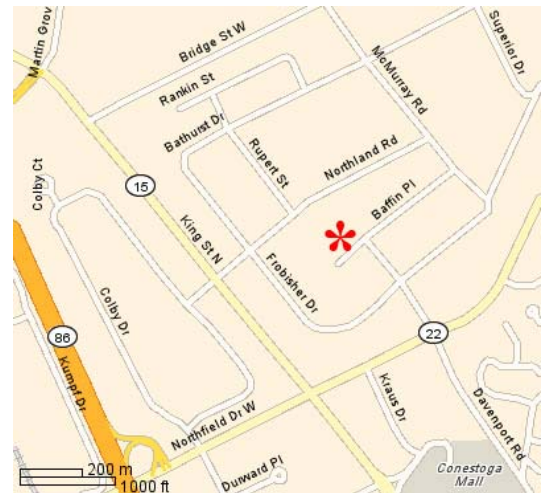

The affordability and reliability of the technology is expected to make energy-efficient homes more widely available to homebuyers across Ontario

David Suzuki, Gerald Van Decker of Power-Pipe and Corey McBurney of EnerQuality Corporation, the organization which oversees ENERGY STAR for New Homes in Ontario, will announce the latest technology to transform the energy-efficient housing industry in Ontario. Remarks from David Suzuki and a ribbon cutting ceremony will mark the occasion.

When: April 25, 2006, 2:30 PM

Where: RenewABILITY Energy Inc., 60 Baffin Place, Unit #2, Waterloo

Directions: RenewABILITY Energy Inc is located 1 mile from the King Street Exit of the Conestoga Parkway/Provincial Route 85 North - Waterloo. Exit the Conestoga Parkway on King Street North (RR-15 North). After exiting Conestoga Parkway, proceed .4 miles on King Street making a right onto Northfield Drive East (RR-22). Travel .2 miles and turn left onto Davenport Road. Follow Davenport Road for .2 miles and turn left on to Baffin Place.
